

Sunscreen and Insect Repellant

DSS regulations state that CTM will have written permission to apply sunscreen and insect repellant to children in our care.

Parents must supply these topicals, with the child's name clearly printed on the bottles.

CTM is not permitted to apply sunscreen/bug spray to any child without this permission form AND a labeled bottle of sunscreen/bug spray for said child.

Parents should apply sunscreen and bug spray before morning drop off during the seasons that these may be needed, and CTM staff will reapply later in the day.

I hereby give permission to CTM staff to apply the following (checked) to my child.

I will provide the bottles of these products to CTM to use on my child with his/her name clearly marked on the container(s).

I will provide a second bottle of sunscreen and insect repellant to be kept in after school if my child will attend this program (primary and elementary only).

Childs Name: _____

_____ Insect Repellant

_____ Sun Screen

Signature: _____ Date: _____
